

Fort Wayne Sentinel.

SATURDAY, OCTOBER 17, 1855.

Allen County Agricultural Society.

The Allen County Fair for the coming year will be held in the jury room over the Standard Office, next Saturday, October 20th at 1 o'clock P. M.

The Premiums awarded at the Fair will also be distributed at that time.

F. H. TAYLOR, Secy.

Allen County Fair.

Our fair was held on Wednesday and Thursday last. Owing to the amount of sickness through the country, and the fact that the farmers are so much hurried with their fall work, the attendance was not so large as we could have wished. The show of stock was not large, but included some very fine animals, the thoroughbred Durham cattle of Messrs. Rockwell, Nelson, and Thompson, were splendid animals, and we believe would advantageously compare with any to be found in the state. Some fine horses were exhibited, and a few good hogs.

In agricultural implements, Messrs. Read & Clark and J. Yandell had some of the best ploughs, others as regards workmanship or adaptation for service, we have ever seen. Messrs. Stover and Bruce's light 2-horse wagon was much admired for the excellency of its mechanism, its lightness, and great strength; it cannot be beat in the state, and afford a gratifying evidence of the skill of our mechanics. For agricultural implements, wagons, &c., Fort Wayne is ahead of any other place in this part of the state, and we much doubt if it can be beat anywhere. Mr. Stanley also had some elegant carriages and buggies of superior workmanship and finish.

In the Hall, the exhibition of fruits and flowers was superb, and demonstrated that our citizens have successfully cultivated a taste for horticulture and decorative. The fruits, especially apples, were pronounced by competent judges superior to any thing seen at the Ohio State Fair. With proper care, after all will become known as one of the best fruit-growing countries in the west. The display of vegetables was large, and of fair quality and growth. Some token best specimens of corn were exhibited, the whole corn raised by Mr. Garvin on his prettys farm, was the largest and heaviest we have ever seen, and shows the Mexican bottom to be in every way inferior to the turned, Wahab, and Schafel for raising that great western staple. In manufactured and fancy articles the exhibition was large and highly creditable. The beautiful needle-work and embroidery is evidence (if any were needed) of the taste, skill, and industry of the ladies of Allen County. Mr. Donald had some of his delicate Dignityport, which were to say the least, fully equal to the best we have seen in the eastern cities. Dr. Knapp had some highly finished specimens of Denby; Mr. Dredge some matchless specimens of porcelain. The Marquis Linton from H. C. Gray & Co's manufactory was in the highest degree creditable, as were also the exhibits from the same establishment. Mrs. Sulley exhibited some velvet blouses of her own manufacture which would do no discredit to a Broadway establishment. Several good specimens of damask, muslin, and other cloths, jeans, calico, nits, &c. were also exhibited, and just as bad as best. Messrs. Jones, Hove, & Co. had a well built stationary steam engine, which was a fair specimen of what Fort Wayne mechanics can do.

We regret our limit will not allow us to particularize more fully. Several other articles were very creditable, but we cannot spare the room. We hope next week to publish the award of premiums. The Marquis Linton from H. C. Gray & Co's manufactory was in the highest degree creditable, as were also the exhibits from the same establishment. Mrs. Sulley exhibited some velvet blouses of her own manufacture which would do no discredit to a Broadway establishment. Several good specimens of damask, muslin, and other cloths, jeans, calico, nits, &c. were also exhibited, and just as bad as best. Messrs. Jones, Hove, & Co. had a well built stationary steam engine, which was a fair specimen of what Fort Wayne mechanics can do.

The result in Indiana.—We have only a few returns from this state, but from their complex, we conclude that their fanaticism, fusionism, and Know Nothing had been badly used up. Indiana last Monday resulted in a brilliant democratic triumph. All our candidates were elected by majorities ranging from 302 to 494 and I had this, with a very slight note, more than two-thirds of our citizens having voted. With a full vote our party would have run up to 800 or 1000.

The election passed off quietly and orderly, and though the fusionists were defeated, pell-mell and combative democratic districts, having on their names of one or more fusion candidates, and many unrepresenting democrats were disgraced thereby, no breach of the peace or disruption of harmony was the result.

Allia County bound to the Core! Our election last Monday resulted in a brilliant democratic triumph. All our candidates were elected by majorities ranging from 302 to 494 and I had this, with a very slight note, more than two-thirds of our citizens having voted. With a full vote our party would have run up to 800 or 1000.

The election passed off quietly and orderly, and though the fusionists were defeated, pell-mell and combative democratic districts, having on their names of one or more fusion candidates, and many unrepresenting democrats were disgraced thereby, no breach of the peace or disruption of harmony was the result.

In our township we are told that a professing democrat was actively engaged in the disreputable business of robbing those kept sick. The thing seems so monstrous that we can scarcely credit it—but the rule of that township certainly gives color to the rumor. The democrat there should look into the matter, and if the rumor is true, should at once stop this individual's power, inasmuch as by expelling him from their ranks.

The official returns of the county will be found in another column.

Gas—One gas-works are nearly completed, and the manufacture of gas already commenced. This evening we are informed, the gas will be turned on and our city lighted up with it. This will mark another new era in the progress of our city, and besides its convenience to the consumer, and will add much to the appearance of our shores. The contractors do not great credit in their promptness in completing the works within the time specified in the contract, and the thorough and excellent manner in which every thing connected with the works has been constructed.

WASHINGTON, Oct. 8.

The Star of this evening publishes a letter from Georgetown, Nicaragua. The writer says the English Consul and the Capt. of the Mano-a-Ship Eurydice refused to acknowledge the new Government. Mr. Martin, the English Consul states that he shall still exercise the jurisdiction given him since two years ago, as he holds that it has not yet been annulled.

WASHINGTON, Oct. 6.

The American of this evening gives the following intelligence:

"We have just received intelligence from Copenhagen, that the English Consul and the Capt. of the Mano-a-Ship Eurydice refused to acknowledge the new Government. Mr. Martin, the English Consul states that he shall still exercise the jurisdiction given him since two years ago, as he holds that it has not yet been annulled."
